

In August 2007 the Atlantic College of Therapeutic Massage entered into a credit transfer arrangement with the Faculty of Nursing at the University of New Brunswick.

Students who complete the 18-month program at the Atlantic College of Therapeutic Massage will have the opportunity to enter the program leading to a Bachelor of Science in Nursing degree at UNB, with fourteen transfer credits. This will enable the students to obtain a BScN with a reduced course load.

The Atlantic College of Therapeutic Massage is continuing to meet the highest standards in the profession as the only massage therapy school having a formal credit transfer agreement with a University.

The Nursing Faculty will give credit for the following courses that are taken by ACTM graduates:

Biology 1711 Human Anatomy      Biology 2501 Pathophysiology I  
Biology 2782 Human Physiology I      Biology 2512 Pathophysiology II

The Director of Undergraduate Programs with the Faculty of Nursing at UNB, Reida E. Woodside states, "All new applicants who have completed the massage therapy program from the Atlantic College of Therapeutic Massage within the last few years will be given credit for the above four courses."

If you require any further information on the transfer agreement or on the College, please do not hesitate to contact us at (506) 451-8188.
